

Maternal Health Access Solutions

POWERED BY **Ob Hospitalist Group**™

Do the work you love caring for the
women who need you

Are you driven to serve women in underserved communities?

Every day, Ob Hospitalist Group (OBHG) clinicians work in partnership with hospitals across the country to ensure women have access to the care they deserve, with the best possible outcomes.

While our inpatient OB hospitalist programs are ideal for many hospitals, we're proud to offer another solution to hospitals dedicated to maintaining crucial women's services in their community, despite the staffing challenges they face.

That's where you come in. If your calling is to care for women who deserve quality care close to home, look no further.

At OBHG, you can make a significant difference caring for obstetrics and gynecology patients through one of our Maternal Health Access Solutions clinical roles. These full-scope hybrid roles include working at hospital clinics, providing on-call coverage, and other essential services, with a flexible schedule and stipends for expenses. Relocation is not necessary.

Maternal Health Access Solutions

POWERED BY **Ob Hospitalist Group**™

Do the work you love caring for the women who need you
