 South Carolina • South Dakota
 Tennessee • Texas • Utah • Vermont
 Virginia • Washington • Wisconsin
 Wyoming • Washington DC

Company Overview

As the nation's largest and only dedicated OB/GYN hospitalist provider, Ob Hospitalist Group (OBHG) is a recognized leader in elevating the quality and safety of women's healthcare. OBHG's network of skilled OB clinicians are in the hospital 24/7 to ensure consistent, timely care for every patient entering the labor and delivery unit or obstetric emergency department. Their presence reduces delay in emergent OB/GYN care, improves outcomes, and increases patient satisfaction compared to traditional triage models. OBHG also addresses maternity care deserts by helping rural and lower delivery volume hospitals keep the doors open through OBHG's Maternal Health Access Solutions. In partner hospitals across the United States, OBHG clinicians provide collaborative, non-competitive support for local OB/GYN providers, improve patient outcomes, reduce care variability, and drive operational and financial efficiencies. Vision

To *elevate the standard of women's healthcare* by delivering specialized services that improve quality and positively impact the lives of women, newborns and the families we serve.

Core Operating Principles

- Primary focus on clinical quality and risk management through ongoing investment in our data and risk management capabilities
- Utilization of our network data to provide insights for continuous clinical, operational and financial improvement
- Proactive collaboration with local administration to set program objectives and other hospital vendors in adjacent departments
- Non-competitive partnership with local physicians through the Obstetric Services Agreement (OSA)
- Staffing a cohesive, engaged team, with at least three full-time physicians who are active throughout their shift on the floor and in the department through department committees and leadership positions

Ob Hospitalist Group - Company Fact Sheet

Scope of Services

Active On-Site Coverage

- Triage of every patient entering the OBED
- Affordable, non-competitive support for OB/GYN physicians

Clinical Support

- Clinical leadership (site directors, medical directors)
- Clinical protocol implementation and management
- Physician training and continuing medical education (through OBHG University)

L&D/OBED Management

- Professional fee billing, coding, and collections
- Facility fee management

SAFE Program (Quality Management)

- Risk data reporting system
- Quality data and outcomes metrics tracking and analysis

Program Implementation

- Strategy and design of customized clinically integrated model
- Assistance in setting-up a state compliant OBED
- Implementation project management

Program Value Drivers

Patient Experience and Outcomes

- Reduced exposure to medical malpractice claims
- Improved quality metrics
- Improved management of unassigned patients and fewer unattended deliveries

Staff and Local Physician Engagement

- Greater ability to recruit and retain new physicians
- Increased physician leadership through strong site director
- Reduced burnout and improved profitability for local physicians

Financial Improvement

- OBED facility fee charges with more appropriate acuity scores
- Increased volume and capture driven by improved physician relationships
- Reduced staff turnover

Cheryl Slack
Chief Human Resources Officer
