Company Overview

As the nation's largest and only dedicated OB/GYN hospitalist provider, Ob Hospitalist Group (OBHG) is a recognized leader in elevating the quality and safety of women's healthcare. OBHG's network of skilled OB clinicians are in the hospital 24/7 to ensure consistent, timely care for every patient entering the labor and delivery unit or obstetric emergency department. Their presence reduces delay in emergent OB/GYN care, improves outcomes, and increases patient satisfaction compared to traditional triage models. OBHG also addresses maternity care deserts by helping rural and lower delivery volume hospitals keep the doors open through OBHG's Maternal Health Access Solutions. In partner hospitals across the United States, OBHG clinicians provide collaborative, non-competitive support for local OB/GYN providers, improve patient outcomes, reduce care variability, and drive operational and financial efficiencies.

Patient Encounters 901,374	Cesarean Assists 35,854
Emergent Interventions 99,121	Deliveries 88,572
High-Risk Encounters 397,561	Total Clinicians 2,142+

Vision

To elevate the standard of women's healthcare by delivering specialized services that improve quality and positively impact the lives of women, newborns and the families we serve.

Core Operating Principles

- Primary focus on clinical quality and risk management through ongoing investment in our data and risk management capabilities.
- Utilization of our network data to provide insights for continuous clinical, operational and financial improvement.
- Proactive collaboration with local administration to set program objectives and other hospital vendors in adjacent departments.
- Non-competitive partnership with local physicians.
- Staffing a cohesive, engaged team, with at least three full-time physicians who are active throughout their shift on the floor and in the department through department committees and leadership positions.
